THE

AMERICAN JOURNAL

OF

SCIENCE AND ARTS.

EDITORS AND PROPRIETORS,

PROFESSORS JAMES D. DANA AND B. SILLIMAN.

ASSOCIATE EDITORS,

PROFESSORS ASA GRAY AND WOLCOTT GIBBS,
OF CAMBRIDGE,

AND

PROFESSORS H. A. NEWTON, S. W. JOHNSON,
GEO. J. BRUSH AND A. E. VERRILL,
OF NEW HAVEN.

THIRD SERIES.

VOL. IV.—[WHOLE NUMBER, CIV.]

Nos. 19—24.

JULY TO DECEMBER, 1872.

WITH FIVE PLATES.

NEW HAVEN: EDITORS.
1872.

PRINTED BY TUTTLE, MOREHOUSE & TAYLOR, 221 STATE ST.

CONTENTS OF VOLUME IV.

NUMBER XIX.

Page

ART. I.—Notices of Recent Earthquakes; by C. G. ROCKWOOD, Jr., ... 1

II.—Contributions from the Physical Laboratory of Harvard College; No. III. On the Electrical Condition of Gas Flames; by JOHN TROWBRIDGE, ... 4

III.—On Molecular and Cosmical Physics; by W. A. NORTON, 8

IV.—On the Datolite from Bergen Hill, New Jersey; by EDWARD S. DANA. With Plate I, ... 16

V.—On certain Lower Silurian rocks in St. Lawrence county, N. Y.; by T. B. BROOKS, ... 22

VI.—On a simple Apparatus for the Production of Ozone with Electricity of high tension; by A. W. WRIGHT, ... 26

VII.—On the Action of Ozone upon Vulcanized Caoutchouc; by A. W. WRIGHT, ... 29

VIII.—On the Oceanic Coral Island Subsidence; by JAMES D. DANA, ... 31

IX.—On a precise Method of tracing the Progress and of determining the Boundary of a Wave of Conducted Heat; by ALFRED M. MAYER, ... 37

X.—Remarks on the late Criticisms of Prof. Dana; by T. STERRY HUNT, ... 41

XI.—On the Meteors of April 30th–May 1st; by DANIEL KIRKWOOD, ... 52

XII.—On the Tertiary Basin of the Marañon; by CH. FRED. HARTT, ... 53

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—On the light emitted by the vapor of iodine, SALET: On the absorption spectra of the vapors of selenium and of certain other bodies, GERNEZ, 59.—On the absorption spectra of the vapors of sulphur, selenious acid and hypochlorous acid: On fluoride of silver, GORE, 60.—On a method of fixing the Constitution of Acids and Alcohols by the oxidation of their Ketones, POPOFF, 61.—On Phenol-colors and their Relation to Natural Coloring Matters, BAEYER, 62.—A New Erecting Prism, JOSEPH ZENTMAYER, 64.

Geology and Natural History.—On the Eozoon, DAWSON, 65.—Discovery of a Large Bone Cave in Bavaria, 69.—Pseudomorphs of Serpentine with the form of Staurolite, RAND, 71.—Hisingerite, from the Gap Mine, Lancaster County, Pa., RAND: Descriptions of new species of fossils from the vicinity of Louisville, Ky.. and the Falls of the Ohio, JAMES HALL and R. P. WHITFIELD: Mineralogical investigations of vom Rath: Proceedings and Transactions of the Nova Scotian Institute of Natural Science of Halifax: Marc Micheli, On some Recent Researches in Vegetable Physiology, 72.—Botany for Beginners, MASTERS, 75.—Musci Appalachiani, AUSTIN, 76.—Gray's Botanical Series: Journal of Zoology: Zoölogie et Paléontologie Générales, GERVAIS: Rectification of T. A. Conrad's "Synopsis of the Family of Naiades of North America," LEA, 77.

Astronomy.—The Double Star Castor, 77.—Meteorite of Ibbenbühren, Westphalia, ROSE: Meteorites of India, TSCHERMAK, 78.

Miscellaneous Scientific Intelligence.—Cause of the blue and violet chatoyant colors of Fishes, POUCHET: Iron in the blood, BOUSSINGAULT, 78.—Prismatic bows on the surface of the Lake of Geneva: Chestnut tree, D'ETTINGSHAUSEN: Ueber krystallinischen Hagel im thrialethischen Gebirge, etc., von H. ABICH, 79.—Die Wirbelstürme, Tornadoes und Wettersäulen in der Erd-Atmosphäre, T. REYE: American Journal of Conchology, G. W. TRYON, Jr.: Notes sur les Tremblements de Terre en 1869, etc., A. PERREY: Half-Hour Recreations in Science, 80.

NUMBER XX.

Page

ART. XIII.—On the Evaporative Efficiency of Steam Boilers; by WM. P. TROWBRIDGE, ... 81

XIV.—Description of two new Land Snails from the Coal-measures; by F. H. BRADLEY, ... 87

XV.—On Glacial Phenomena in the vicinity of New York City; by R. P. STEVENS, ... 88

XVI.—On the Estimation of Sulphur in Coal and Organic Compounds; by W. G. MIXTER, ... 90

XVII.—On the Address before the American Association of Prof. T. Sterry Hunt; by JAMES D. DANA. No. II, ... 97

XVIII.—Reply to a "Note on a question of Priority;" by JAMES HALL, ... 105

XIX.—On the Corundum region of North Carolina and Georgia, with descriptions of two gigantic crystals of that species; by CHARLES U. SHEPARD, Sr., ... 109

XX.—Ohm's law considered from a geometrical point of view; by JOHN TROWBRIDGE, ... 115

XXI.—New North American Myriopods; by O. HARGER, ... 117

XXII.—Preliminary Description of New Tertiary Mammals; by O. C. MARSH. Part I, ... 122

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—An experiment in reference to the question as to vapor-vesicles, T. PLATEAU, 129.—On the nitro-compounds of the fatty series, 131.—On the reduction of glutanic acid by iodhydric acid: On an aldehyd-alcohol, 132.

Geology and Mineralogy.—Fossils probably of the Chazy era in the Eolian Limestone of West Rutland, BILLINGS: Hayden Exploring Expedition, BRADLEY, 133.—La Névé de Justedal et ses Glaciers, DE SEUE, 134.—The Ancient Glacier of the Rhone: Glacial action in Fuegia and Patagonia, AGASSIZ, 135.—Annual Report of the Superintendent of the Louisiana State University, for the year 1871, 136.—Investigations on Fossil Birds, MILNE-EDWARDS, 138.—Fossil Vertebrates from the Niobrara and Upper Missouri: Extinct Mammals from the Tertiary of Wyoming, LEIDY: Graptolites, 142.—Descriptions of New Species of Fossils, HALL and WHITFIELD: Coal of Lota: On the Rate of Growth of Coral Reefs, DANA, 143.—Revue de Géologie pour les années 1868 and 1869, DELESSE and de LAPPARENT: Memoirs of the Geological Survey of India: Geological Survey of Canada, SELWYN, 145.—Stirlingite, Rœpperite: Oligoclase from Wilmington, Del.: Cryptomorphite in Nevada: Zeunerite of A. Weisbach, 146.—On a Transparent Garnet from Jordansmühl in Silesia, WEBSKY: On the composition of the vapors near Vesuvius, GORCEIX: Note on Rhinosaurus, MARSH, 147.

Zoölogy and Botany —Note on Intelligence in Monkeys, COPE, 147.—Curious Habit of a Snake, COPE: Diatoms in Hot Springs, 148.—Life in the Mammoth Cave, PACKARD, Jr. and PUTNAM: Reproduction of Sponges: Robert Brown's first Botanical Paper, 149.—Prantl's memoir upon Inuline, 150.—The Erysiphei of the United States: Kan-sun: Martius, Flora Brasiliensis, 151.

Astronomy.—On the Temperature of the Surface of the Sun, ERICSSON, 152.—Aurora of Feb. 4, GABB: Edinburgh Astronomical Observations: Astronomical and Meteorological Observations made during the year 1869, SANDS, 156.

Miscellaneous Scientific Intelligence.—Height of Mt. Rainier and Mt. Baker: Glaciers on the Mountains of the Pacific Coast, 156.—Academy of Natural Sciences of Philadelphia: Memorie della Società dei Spettroscopisti Italiani, TACCHINI, 157.—Monthly Record of Results of Observations in Meteorology, etc.: Hayden's Exploring and Surveying Expedition: Memoirs of the Peabody Academy of Sciences, PACKARD, Jr.: Petroleum in San Domingo, MARVINE, 158.—American Association, 159.—*Obituary.*—William Stimpson, 159.—Robert Swift: George R. Gray, 160.

NUMBER XXI.

Page

ART. XXIII.—Researches in Actino-Chemistry. Memoir First. On the Distribution of Heat in the Spectrum; by JOHN WILLIAM DRAPER, ... 161

XXIV.—On the Corundum region of North Carolina and Georgia, with descriptions of two gigantic crystals of that species; by CHARLES UPHAM SHEPARD, Sr., ... 175

XXV.—Notice of some of the works of J. Barrande; by FRANK H. BRADLEY, ... 180

XXVI.—On the Red Oxide of Zinc of New Jersey; by AUG. A. HAYES, ... 191

XXVII.—Remarks on Dr. R. Radau's paper in Dr. Carl's "Repertorium;" by ALFRED M. MAYER, ... 198

XXVIII.—Preliminary Description of New Tertiary Mammals; by O. C. MARSH, ... 202

XXIX.—On certain Relations between the mean motions of the Perihelia of Jupiter, Saturn, Uranus and Neptune; by DANIEL KIRKWOOD, ... 225

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—On the ammoniacal platinum bases, CLEVE, 226.—On compounds containing phosphorus and platinum, SCHUTZENBERGER, 227.—On the specific heat of carbon, H. F. WEBER, 228.—What determines Molecular Motion? JAMES CROLL, 229.—On the Separation of Yttria and Ceria from Zirconia and Iron, J. W. TAYLOR, 230.

Geology and Natural History.—On Quebec and Carboniferous Rocks in the Teton Range, F. H. BRADLEY, 230.—On Changes of Climate during the Glacial epoch, J. GEIKIE. 231.—On the Geology of the Northeastern West India Islands, P. T. CLEVE, 234.—Devonian and Lower Carboniferous Plants, HEER, 236.—Proceedings of the Lyceum of Natural History, 237.—U. S. Geological Survey of the Territories, F. V. HAYDEN: Damouritic garnetiferous schist of Salm-Château, L. D. DE KONINCK and DAVREUX: Bathmodon radians of Cope, COPE, 238.—On some New Species of Fossil Mammalia from Wyoming, Jos. LEIDY, 239.—Descriptions of new species of Fossils from the Devonian rocks of Iowa, J. HALL and R. P. WHITFIELD: On the Fossil Man of the cavern of Broussé-roussé, in Italy, E. RIVIERE: Sharks' teeth of the Crag, supposed to have been bored by man, T. McK. HUGHES: The Geology and Physics of the Post-glacial period in Lancashire and Cheshire, T. MELLARD READE, 241.—The Birds of North America, S. F. BAIRD: Fossil Cephalopods of the Museum of Comparative Zoology, ALPHEUS HYATT: Boston Society of Natural History: Efflorescent Salt obtained twelve miles from Denver, Colorado, 242.

Astronomy.—Annals of the Observatory of Harvard College, WM. CRANCH BOND, 242.—Astronomical Engravings of Moon-Craters, Sun-Spots, etc.: Aurora Australis in March, 243.—The Sun's Light: The August Meteors: On two new Planets, C. H. F. PETERS, 244.—Spectra of star-shine, night-light, the Zodiacal light, C. PIAZZI-SMYTH, 245.

Miscellaneous Scientific Intelligence.—List of Elevations and Distances in that portion of the United States west of the Mississippi River, C. THOMAS, 246.—Effect of change of barometric pressure on human beings: The Temperature and Rainfall of July, 1872, C. KEUTGEN, JR.: A Manual of Qualitative Analysis, ROBERT GALLOWAY, 248.

NUMBER XXII.

Page

ART. XXX.—On the nature and duration of the discharge of a Leyden Jar connected with an induction coil; by OGDEN N. ROOD. Part III. (To be continued.) 249

XXXI.—Notice of some New Tertiary and Post-Tertiary Birds; by O. C. MARSH, ... 256

XXXII.—On the Oviducts and Embryology of Terebratulina; by EDWARD S. MORSE, Ph.D. With Plate III. ... 262

XXXIII.—Erratum of the Errata, or "A Few Millions;" by ALFRED M. MAYER, Ph.D., ... 264

XXXIV.—On some points in the Geology of the Southwest; by E. W. HILGARD, ... 265

XXXV.—Contributions from the Sheffield Laboratory of Yale College. No. XXV.—Results of a Chemical Investigation of some Points in the Manufacture of "Malleable Iron;" by RUSSELL W. DAVENPORT, Ph.B., ... 270

XXXVI.—Descriptions of a few new species, and one new genus, of Silurian Fossils, from Ohio; by F. B. MEEK, .. 274

XXXVII.—Discovery of a New Planet; by C. H. F. PETERS, 281

XXXVIII.—Address before the American Association at its recent meeting in Dubuque, Iowa; by ASA GRAY, ... 282

XXXIX.—Preliminary Description of New Tertiary Reptiles; by O. C. MARSH, ... 298

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—Water not an Electrolyte, 310.—Further Examination of the new Platinic chloride, NORTON: On the Formation of Chloral. WURTZ and VOGT, 312.—On a new Organic Base, obtained from Dulcite, BOUCHARDAT, 313.

Geology and Natural History.—Hayden Rocky Mountain Geological Expedition, 313.—On the Owen's Valley Earthquake, 316.—Bahamas, 318.—Surface Geology of Northwestern Ohio, WINCHELL, 321.—Note on Tinoceras anceps, MARSH: A Monograph of the Fossil Crustacea belonging to the Order Merostomata. WOODWARD, 322.—Notice of a new species of Tinoceras, MARSH: Microscopical: A Life Slide, 323.

Astronomy.—Extract from the Address of Mr. DE LA RUE before the British Association, 324.—Report on Lunar Objects suspected of Change, BIRT: Aurora Australis, 326.—Colors of the equatorial bands of Jupiter: The Object-glass of the Allegheny Observatory stolen: Erratum to Prof. Kirkwood's Article, 327.

Miscellaneous Scientific Intelligence.—Meeting of the American Association, 327.—Papers relating to the Transit of Venus in 1874, 330.—Volcanic Eruption on Hawaii: Tidal wave at the Sandwich Islands: A General Index to the Con-

tents of Fourteen Popular Treatises on Natural Philosophy: Pompeii, 331.—Sea-Serpents: Bass culture in England: British Association, 332.—*Obituary.*—Sir Andrew Smith: Delaunay, 332.

APPENDIX.

Euclid's Doctrine of Parallels; by A. C. TWINING, ... 333
Notice of some Remarkable Fossil Mammals; by O. C. MARSH. 343
Notice of a New and Remarkable Fossil Bird; by O. C. MARSH, ... 344

NUMBER XXIII.

Page

ART. XL.—A Theory of the Formation of the great Features of the Earth's Surface; by JOSEPH LECONTE, ... 345
XLI.—Catalogue of bright Lines in the Spectrum of the Solar Atmosphere; by C. A. YOUNG, ... 356
XLII.—On the Quartzite, Limestone and associated rocks of the vicinity of Great Barrington, Mass. With a map, on Plate IV; by JAMES D. DANA, ... 362
XLIII.—On the nature and duration of the discharge of a Leyden Jar connected with an induction coil; by OGDEN N. ROOD. Part III, ... 371
XLIV.—On the Allegheny System of Electric Time Signals; by S. P. LANGLEY, ... 377
XLV.—On a method of detecting the phases of vibration in the air surrounding a sounding body, and thereby measuring directly in the vibrating air the length of its waves and exploring the form of its wave-surface; by ALFRED M. MAYER, ... 387
XLVI.—Growth or Evolution of Structure in Seedlings; by JOHN C. DRAPER, ... 392
XLVII.—Rejoinder to Prof. Hall's reply to a "Note on a Question of Priority"; by E. BILLINGS, ... 399
XLVIII.—Elements of Planets (122) and (123); by C. H. F. PETERS, ... 400

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—On the Chemical Efficiency of Sunlight, J. DEWAR, 401.—On the Law of Extraordinary Refraction in Iceland Spar, G. G. STOKES, 404.—On a new Galvanic Pile, of economic construction, M. GAIFFE, 405.

Geology and Natural History.—Discovery of Fossil Quadrumana in the Eocene of Wyoming, O. C. MARSH, 405.—Note on a new genus of Carnivores from the Tertiary of Wyoming, O. C. MARSH: Notice of a New Reptile from the Cretaceous, O. C. MARSH: Recent Eruption of Mauna Loa, T. COAN, 406.—Ascent of Mauna Loa to the scene of the Eruption, 407.—Volcanic Energy, an attempt to develop its true origin and cosmical relations, R. MALLET, 409.—Solvent action of water, J. PRESTWICH, 412.—Correlations of the Coal Measures of Britain, France and Belgium, J. PRESTWICH, 413.—Recent Observations in the Bermudas, M. JONES, 416.—History of the names Cambrian and Silurian in Geology, T. S. HUNT, 416.—Report of the Geological Survey of the State of New Hampshire, C. H. HITCHCOCK, 417.—Memorie per servire alla Descrizione della Carta Geologica d'Italia: On the Occurrence of Native Sulphuric Acid in Eastern Texas, J. W. MALLET, 418.—Analysis of a Compact Talc from North Carolina, J. B. ADGER: Leucite: On the occurrence in recent Pine Timber of Fichtelite, J. W. MALLET, 419.—Botanical Publications and Intelligence, 420.—A Handbook of Chemical Technology, R. WAGNER: On Beavers and Beaver Dams in Mississippi, J. SHELTON, 422.

Astronomy.—Spectrum of the Aurora, E. S. HOLDEN, 423.

Miscellaneous Scientific Intelligence.—Institute of Technology, Boston: Annual Report of the Director of the Meteorological Observatory, Central Park, New York: Hayden's Geological Exploration in the Rocky Mountains, 424.—*Obituary.*—Rev. John P. Perry: John F. Frazer, 424.

NUMBER XXIV.

Page

ART. XLIX.—On a simple and precise method of measuring the wave-lengths and velocities of sound in Gases; and on an application of the method in the invention of an Acoustic Pyrometer; by ALFRED M. MAYER, ... 425

L.—On the stability of the Collodion Film; by LEWIS M. RUTHERFURD, ... 430

LI.—Note upon Aventurine Orthoclase, found at the Ogden Mine, Sparta Township, Sussex Co., N. J.; by Prof. LEEDS, ... 433

LII.—On Soil Analyses and their Utility; by EUG. W. HILGARD, ... 434

LIII.—The Heat produced in the Body, and the effects of Exposure to Cold; by JOHN C. DRAPER, ... 445

LIV.—On the Quartzite, Limestone and associated rocks of the vicinity of Great Barrington, Berkshire Co., Mass.; by JAMES D. DANA (continued), ... 450

LV.—On the relation between Color and Geographical Distribution in Birds, as exhibited in Melanism and Hyperchromism; by ROBERT RIDGWAY, ... 454

LVI.—A Theory of the Formation of the great Features of the Earth's Surface; by JOSEPH LECONTE (concluded), .. 460

LVII.—On a crystal of Andalusite, from Delaware Co., Pa.; by EDWARD S. DANA, ... 473

LVIII.—Spectrum of Lightning; by EDWARD S. HOLDEN, .. 474

Letter from Dr. B. A. GOULD, Director of the Observatory at Cordoba, ... 475

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—On Manometric Flames, by R. KÖNIG, 481.—On the light emitted by the phosphorescent compounds of uranium, BECQUEREL, 486.—On the spectrum of the Aurora Borealis, VOGEL, 487.—On the heat of expansion of solid bodies, BUFF, 488.

Geology and Natural History.—Wyoming Coal Formations, E. D. COPE: Decaisne's Monograph of the Genus Pyrus, 489.—Botanical supplement to the fifth Annual Report of the U. S. Geological Survey of the Territories for 1871, by M. LESQUEREUX, 494.

Astronomy.—Elements of Alceste, by C. H. F. PETERS, 495.

Miscellaneous Scientific Intelligence.—Analysis of the Meteoric Iron of Los Angeles, California, by C. T. JACKSON, 495.—Tables and Diagrams relating to non-condensing Engines and Boilers, by W. P. TROWBRIDGE: Chemistry, Inorganic and Organic, with Experiments, C. L. BLOXAM, 496.—Report of the Mt. Uniache, Oldham, and Renfrew Gold Mining Districts, by H. YOULE HIND, 497.—Astronomical Engravings, by the Observatory of Harvard College, 497.—*Obituary.*—John F. Frazer, 497.
